Self-Certification relating to:

KYMINASI PLANTS CROP BOOSTER DEVICES

Manufacturer K PROJECT SRL,
Head office: Via Belvedere, 11 - 22079 Villa Guardia (CO) Italy

DECLARES

That the KYMINASI PLANTS CROP BOOSTER DEVICES, although not normalized by specific regulations and, consequently not CE marked, are aligned with the following regulatory overview:

- Ministerial Decree of 12 June 2003, no. 185 - Regulation laying down technical standards for the re-use of wastewater in implementation of Article 26, paragraph 2, of Legislative Decree no. 11 May 1999, no. 152. Among other things, for irrigation purposes;
- Reg. (EU) 1009/2019 - Lays down rules for making available on the market of EU fertilizer products, amending or amending Regulations (EC) No 1069/2009 and (EC) No 1107/2009 and repealing Regulation (EC) No. 2003/2003;
- Directive 2001/95/EC on general product safety.

To ensure that the KYMINASI PLANTS CROP BOOSTER DEVICES do not affect the criteria and requirements defined in the above regulation, manufacturer K Project has carried out the following testing:

- phytotoxicity tests;
- testing the effects of the device on vegetative activity.

All the tests showed that the irrigated crops with irrigation water where they were applied KYMINASI PLANTS CROP BOOSTER DEVICES were not affected in growth and properties, if not for the better.

Furthermore, the manufacturer after having completed a Safety Requirements assessment and Risk Analysis derived from their use, declares that KYMINASI PLANTS DEVICES CROP BOOSTER's are safe and aligned to the mandatory features requirements of irrigated water.
